DETAILED ACTION

Allowable Subject Matter

1. Claims 1-12 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 1-11 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 1 wherein the multi-phase clock generation circuit comprises the combination of a reference clock signal generation means (202), a first frequency division means (211), a first clock selection means (212), second frequency division means (213), second clock selection means (214), and clock selection control means (270) in combination with the rest of the limitations of the base claims and any intervening claims. Claim 12 is allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 1 wherein the multi-phase clock generation circuit comprises the combination of a reference clock signal generation means (202), first to nth frequency division means (211, 213, 215), first to nth clock selection means (212, 214, 204), and clock selection control means (270) in combination with the rest of the limitations of the base claims and any intervening claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
